21 Way Of Living
is a venue that
brings together
several different
hospitality
solutions.

120 rooms for long and short stays.

From time-limited stays (**hotels**) to long-term spaces and solutions (**co-living**).

The quality of the design project can be felt as soon as you enter. The layout and colour scheme are the first invitation to explore the generous bistro and co-working spaces.

400 m² of co-working space.

Private corners with all the accessories you need for studying and working alternate with minimalist spaces designed to encourage concentration and facilitate meetings and business.

The prominence of lightness and elegance.

Air tables and sofas are the main players in a lively bistro area and co-working space.

With their floating effect, LAGO furniture solutions combine to create **a flexible and modular interior**, adding precious value to areas dedicated to relaxation, cooking and work. To experience as if it were home.

THE

COMPANY

Essential lines of timeless design.

LAGO design draws its strength from simplicity. Clean forms and language, modularity and architectural mimesis unleash an innate gift for dialogue across different styles and contexts. Design with a strong personality and an enduring appeal centred around sustainability and materials research.

Tailoring and limitless finishes for your creativity.

Products offering a high degree of modularity and interaction are the perfect way to adapt furniture to different spaces. Limitless geometries and sizes to customise with 150 materials and innovative finishes. A wide assortment of solutions to add personality to the entire home: from the living room to the bedroom, the kitchen to the bathroom, and even the children's bedroom.

Quality and a quest for excellence.

Every LAGO product is the result of studies and research aimed at creating well-thought-out, long-lasting, high-quality products. The work of machines is accompanied by meticulous human intervention, which ensures additional attention to detail. We combine reliable industrial processes with the care and dedication of skilled craftspeople.

Living in healthy environments.

LAGO has always chosen to use in its manufacturing process materials that have no impact on the environment, with high quality standards, reducing waste and the quantity of material produced. The use of solvent-free water-based paints that do not emit harmful volatile organic substances into the environment, and panels that meet the strictest standards in terms of formaldehyde content, allow better air quality, keeping indoor areas healthy.
